

The result of 2 years of market research and product testing, our brand new Smartshade Compact Gazebo has all the right features. Strongest in its class yet super-light due to its commercial grade aluminium construction. Its Cool grey 120gsm polyester canopy offers 90% UV protection exceeding expectations and offering the coolest shade under roof. Standard extras include adjustable nylon strap tie-downs with heavy duty pegs and a heavy duty rubber mallet, all packed into a 800D extra strong nylon carry bag. Optional side and back walls are available on request. Smart Shade not only guarantees its products, but stocks spares and services its entire product range, providing unrivalled value in the long run.
